I acknowledge the above designated measure was installed and performed to my satisfaction. I understand the contractor is an independent contractor who is solely responsible for work provided and will be receiving the incentive from the El Paso Electric Company (EPE). I acknowledge that EPE and CLEAResult make no warranty or representation of the qualifications or technical feasibility, capability, safety or reliability of the measure installed by the contractor. I acknowledge that the project would not have been accomplished or would have been completed with a lower level of efficiency without the assistance of the EPE Energy Efficiency Program. By signing below, I agree to give CLEAResult and/or EPE access to project site for inspections if necessary. Customer may contact EPE at (915) 521-4488 or (915) 255-4300 in the event of non-performance by contractor.

Submit Incentive Form, Photos, Invoice and Income Eligibility Form (if applicable) within 45 days of completion to [clearresult.com/trade=ally/epe](http://clearresult.com/trade=ally/epe)

## 2024 RESIDENTIAL & INCOME QUALIFIED SOLUTIONS PROGRAMS

### CENTRAL HP/HP MINI SPLIT INCENTIVE FORM

El Paso Electric

Congratulations on your new energy-efficient Heat Pump system! We hope that you will benefit from more comfort and greater energy savings.

In cooperation with the Public Utility Commission of Texas in documenting the equipment installation, please confirm the following:

What motivated you to replace your old unit? \_\_\_\_\_

Was the equipment that was replaced still functioning? \_\_\_\_\_

Approximate age of the equipment that was replaced: \_\_\_\_\_

Early Retirement programs aim to remove high-consumption units ahead of schedule and replace them with high-performance units. Without the program intervention, homeowners would have continued to operate and maintain older, less efficient equipment for a number of years.

Your existing system was operational at the time of replacement and the El Paso Electric Program Incentive motivated you to replace your system early by off-setting the cost of the more energy efficient equipment.

(Initial)\_\_\_\_\_
