

El Paso Electric Small Commercial Solutions Program Executive Summary

Imagine the possibilities with an extra \$56 million for local businesses.*

That's the impact the Small Commercial Solutions Program has had on El Paso Electric (EPE) small commercial Participants. The Program provides support to eligible EPE customers and Participating Contractors.

EPE has partnered with CLEAResult to administer the Program. No products or services are sold through the Program. Incentives are available for new and retrofit qualifying projects.

The Small Commercial Solutions Program is available to Texas small commercial customers with an annual average peak demand of 100 kW or less at one facility or 250 kW or less at all their facilities. The Program's intent is to influence retrofit, renovation and new construction projects to achieve higher levels of energy efficiency while educating Participants, design professionals and Participating Contractors on energy efficiency best practices for future projects.

By participating in the Program, you can take advantage of the following resources:

- **INCENTIVES** of up to \$400 for every kW saved on qualifying projects, such as:
 - New Construction Projects
 - Lighting Retrofits
 - Lighting and Miscellaneous Controls
 - HVAC Installs & System Upgrades
 - ENERGY STAR® Certified Pool Pumps
 - ENERGY STAR Certified Commercial Food Service Equipment
 - Cool Roof Rating Council Listed Cool Roofs
 - Refrigeration Measures
 - Building Envelope Measures
 - High-Efficiency Evaporative Coolers
- **TECHNICAL ASSISTANCE** to help identify and evaluate energy efficiency opportunities.
- **COMMUNICATIONS SUPPORT** to help publicize your energy efficiency accomplishments.

Please contact EPE or CLEAResult should you have any questions or need additional information.
We look forward to helping your organization save energy and money.
